

Software for MPT Modeling

In the M-DG seminar, we will perform practical exercises using different software packages for MPT modeling. Each participant may bring a notebook, in which case it is necessary to install the following software on this computer. The software will also be available on the computers in the PC room +2/058 (Gutenbergstraße 18).

(1) multiTree

- <https://www.sowi.uni-mannheim.de/erdfelder/forschung/software/multitree/>

(2) A spreadsheet software (e.g., Excel or OpenOffice)

- <https://www.openoffice.de/>

(3) R (version $\geq 3.6.3$)

- <http://cran.r-project.org/>

(4) RStudio (version $\geq 1.2.5033$)

- <https://www.rstudio.com/products/rstudio/download/>

(5) JAGS (version $\geq 4.3.0$)

- <https://sourceforge.net/projects/mcmc-jags/files/>
