

Software for MPT Modeling

During the workshop, we will perform practical exercises using different software packages for MPT modeling. Hence, it is mandatory for each participant to bring a notebook, and to install the following software on this computer:

(1) multiTree

- <http://psycho3.uni-mannheim.de/Home/Research/Software/multiTree/>

(2) A spreadsheet software (e.g., Excel or OpenOffice)

- <https://www.openoffice.de/>

(3) R (version $\geq 4.0.0$)

- <http://cran.r-project.org/>

(4) RStudio (recent version)

- <https://www.rstudio.com/products/rstudio/download/>

(5) JAGS ($\geq 4.3.0$)

- <https://sourceforge.net/projects/mcmc-jags/files/>

(6) TreeBUGS

- Please open the file `install_TreeBUGS.R` in RStudio and follow the instructions
